

# Duplex Fabricated Strainers

Note: Standard Covers on basket strainers are bolted.

**SPECIFICATION:**

The Duplex Strainer shall be designed and manufactured to meet ASME class 125 rated flanges. The duplex strainer shall have four butterfly isolation valves with stainless trim. The strainer body shall be cast iron material and shall be an angular basket design. The header shall be carbon steel material and shall have off-center inlet/outlet connections. The strainer shall be furnished with a bottom blowdown capability. The screen shall be size \_\_\_\_\_ perforated SS. The Duplex Strainer shall have an inlet size of \_\_\_\_\_ and Open Area Ratio of \_\_\_\_\_. The Duplex Strainer shall be American Wheatley Model DFS's \_\_\_\_\_

**MATERIALS OF CONSTRUCTION**

- |                   |                  |                                     |
|-------------------|------------------|-------------------------------------|
| Basket Strainers: | Standard         | Cast Iron 304 SS Basket             |
| Headers:          | Flanged Fittings | Carbon Steel                        |
| Shutoff Valves:   | Standard         | Butterfly Valves                    |
|                   |                  | Ductile Iron Body (non wetted part) |
|                   |                  | CF8M Disc EPDM seats                |
| Hardware:         | Stud             | A193-B7                             |
|                   | Nut              | A194-2H                             |
